**Review report to the Directors of
Ajman Bank PJSC**

Introduction

We have reviewed the accompanying interim balance sheet of Ajman Bank PJSC ("the Bank") as of 30 June 2008 and the related interim statements of income, changes in equity and cash flows for the period from 8 January 2007 to 30 June 2008, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Financial Reporting Standards. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of the financial position of the Bank as at 30 June 2008, and of its financial performance and its cash flows for the period from 8 January 2007 to 30 June 2008 in accordance with International Financial Reporting Standards.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008

1 Incorporation and principal activities

Ajman Bank (P.J.S.C) ("the Bank") is incorporated as a Public Joint Stock Company. The Bank has its registered office at Ajman Free Zone, Block C, Level 13, Al Mina Road, P.O. Box 7770, Ajman, UAE. The Bank was legally incorporated on 17 April 2008 and was registered with the Securities and Commodities Authority ("SCA") on 12 June 2008. The Bank has not as yet formally commenced operations.

The Bank carries out banking, financing and investing activities through various Islamic instruments such as Murabaha, Wakala, Sukuk and Ijarah. The activities of the Bank are conducted in accordance with the Islamic Sharia'a principles and within the provisions of the Memorandum and Articles of Association of the Bank.

2 Summary of significant accounting policies

The significant accounting policies applied by the Bank in the preparation of these interim financial statements are set out below:

Basis of preparation

These interim financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") and under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to these interim financial statements are disclosed under the relevant accounting policies.

Standard, amendments and interpretations to published standards that are not yet effective

The following standard, amendments and interpretations to existing standards that have been published, are mandatory for the Bank's accounting periods commencing on or after 1 January 2009, and have not been early adopted by the Bank.

- IFRS 8 – 'Operating segments' (effective for annual periods commencing 1 January 2009).
- IAS 23 (Amendment), 'Borrowing costs' (effective for annual periods commencing 1 January 2009).
- IFRS 2 (amendment) 'Share-based payment' (effective for annual periods commencing 1 January 2009).
- IFRS 3 (amendment), 'Business combinations' and consequential amendments to IAS 27, 'Consolidated and separate financial statements', IAS 28, 'Investments in associates' and IAS 31, 'Interests in joint ventures', effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008 (continued)

2 Summary of significant accounting policies (continued)

Basis of preparation (continued)

Standard, amendments and interpretations to published standards that are not yet effective (continued)

- IAS 1 (amendment), 'Presentation of financial statements' (effective for annual periods commencing 1 January 2009).
- IAS 32 (amendment), 'Financial instruments: presentation', and consequential amendments to IAS 1, 'Presentation of financial statements' (effective for annual periods commencing 1 January 2009).
- IFRIC 13, 'Customer loyalty programmes' (effective for annual periods commencing 1 July 2008).

Management has assessed the impact of the above standard, amendments and interpretations to published standards on its financial statements and has concluded that they are not relevant to the Bank's financial statements, except for IAS 1 (amendment), which will affect the presentation of the statement of changes in equity and of comprehensive income. This amendment does not impact the recognition, measurement or disclosure of specific transactions and other events required by other IFRS. The application of IFRS 8 will be reflected in the Bank's financial statements for the year ending 31 December 2009.

Foreign currencies

Items included in the financial statements of the Bank are measured using the currency of the primary economic environment in which the Bank operates ('the functional currency'). The financial statements are presented in Arab Emirates Dirhams ("AED"), which is the Bank's functional and presentation currency.

Transactions denominated in foreign currencies are translated into AED at the rates of exchange ruling on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into AED at the rates of exchange ruling at the balance sheet date. The resulting exchange differences are dealt with in the income statement.

Investment in Islamic financing instruments

All investments in Islamic financing instruments are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They arise when the Bank provides funds directly to a debtor with no intention of trading in the financial instruments. Investments in Islamic financing instruments are initially measured at fair value, and subsequently measured at their amortized cost and reported net of impairment provisions.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008 (continued)

2 Summary of significant accounting policies (continued)

Investments in Islamic financing instruments (continued)

Murabaha is a contract of sale between the Bank and its customer for the sale of goods at a price which includes a profit margin agreed by both parties. As a financing technique it involves the purchase of goods by the Bank as requested by its customer. The goods are sold to the customer with a mark-up. Repayment, usually in installments, is specified in the contract.

Wakala involves the Bank providing a certain sum of money to an agent, who invests it according to specific conditions for a certain fee (a lump sum of money or a percentage of the amount invested). On maturity, the Bank receives the invested amount from the agent, along with the agreed rate of return.

Impairment of financial assets

The Bank assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired if and only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the asset that can be reliably estimated. If there is objective evidence that an impairment loss on investments in Islamic financing instruments carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of expected future cash flows discounted at the financial instrument's original effective rate of return, including any amounts recoverable from guarantees and collateral, and recognized in the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed through the income statement.

Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that have suffered an impairment loss are reviewed for possible reversal of impairment at each reporting date.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008 (continued)

2 Summary of significant accounting policies (continued)

Property and equipment

Property and equipment is stated at cost less accumulated depreciation. Depreciation is calculated on the straight-line method to write down the cost of assets to their estimated residual values over their expected useful economic lives as follows:

	Years
Leasehold improvements	3
Furniture, fittings and equipment	5
Vehicles	3
Computer equipment and software	3

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount being the higher of the net selling price and value in use. Gains and losses on disposal of property and equipment are determined by the carrying amount of the asset sold and are taken into account in determining profit for the period. Repairs and renewals expenses are charged to the income statement when the expenditure is incurred.

Capital work-in-progress is stated at cost incurred from the date of commencement of the project to the date on which it is commissioned. When commissioned, capital work-in-progress is transferred to the appropriate category of property and equipment and depreciated in accordance with the Bank's accounting policies.

Revenue recognition

Income from investments in Islamic financing instruments is recognized on a time apportioned basis, over the period of the contract, based on the principal amount outstanding.

Employee benefits

Pension contributions are made in respect of UAE national employees to the UAE General Pension and Social Security Authority in accordance with the UAE Federal Law No (7), 1999 for Pension and Social Security.

A provision is made based on the full amount of end of service benefits due to the non-UAE national employees in accordance with the UAE Labor Law, for their period of service up to the balance sheet date.

Provisions

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008 (continued)

2 Summary of significant accounting policies (continued)

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents include cash on hand, money in current and call accounts and placements with original maturity of less than three months.

3 Financial risk management

The Bank's activities expose it to a variety of financial risks and involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the resultant risks are an inevitable consequence of being in business. The Bank's aim is, therefore, to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Bank's financial performance. During the period from 8 January 2007 to 30 June 2008, the Bank was not exposed to any significant financial risks other than credit risk and concentrations of risk and profit rate risk.

3.1 Credit risk and concentrations of risk

The Bank is exposed to credit risk, which is the risk that a counterparty will cause a financial loss to the Bank by failing to discharge an obligation. Financial assets which potentially subject the Bank to concentrations of credit risk consist principally of cash and cash equivalents and investment in Islamic financing instruments including accrued income on Islamic financing instruments. The Bank uses external ratings such as Standard & Poor's or its equivalent in order to measure its credit risk exposures. In the normal course of business, the Bank places significant deposits with high credit quality banks and financial institutions. At 30 June 2008, the Bank's cash and cash equivalents and investments in Islamic financing instruments were all placed with three Islamic financial institutions based in the UAE.

3.2 Market risk

The Bank may be exposed to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk arises from open positions in profit rate, currency and investment products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as profit rates, credit spreads, foreign exchange rates and equity prices.

3.2.1 *Profit rate risk*

The Bank is exposed to the effects of fluctuations in the prevailing levels of profit rates which arise from the investments in Islamic financing instruments of AED 0.9 billion.

Ajman Bank PJSC

Notes to the interim financial statements for the period from 8 January 2007 to 30 June 2008 (continued)

3 Financial risk management

3.2 Market risk (continued)

3.2.1 Profit rate risk (continued)

During the period from 8 January 2007 to 30 June 2008, had prevailing profit rates increased/decreased by 50 basis points, with all other variables remaining constant, the impact on the results and equity of the Bank would have been as follows:

Benchmark	Impact on results of the Bank	Impact on equity of the Bank
	Period from 8 January 2007 to 30 June 2008 AED	30 June 2008 AED
Investment in \pm 50 basis Islamic financing points change instruments in profit rates	4,103,229	4,103,229

4 Cash and cash equivalents

	30 June 2008 AED
Balances with banks	28,638,722

Cash and cash equivalents are non-profit bearing.

5 Investment in Islamic financing instruments

	30 June 2008 AED
Wakala deposits with banks	984,775,100

Investment in Islamic financing instruments carried an effective rate of return of 1.55 % to 2.1% per annum.

11 Legal reserve

The UAE Federal Law No (8) of 1984, as amended, and the UAE Union Law No. 10 of 1980, as amended, require that 10% of the net profit for the year is transferred to a legal reserve, until such time as the balance in the reserve equals 50% of the issued share capital. This reserve is not available for distribution. No transfer has been made for the current period as the transfer will be determined on the basis of the results of the Bank for the period ending 31 December 2008.
